

Career Opportunity

Water Resources Technologist

Location: Kitchener, Ontario

Availability: Immediate (July 2019)

About Ecosystem Recovery

Established in 2013, Ecosystem Recovery Inc. is a professional engineering/geoscience company specializing in water resources and fluvial geomorphology. Centrally located in Kitchener Ontario, the office is well positioned to serve London, the GTA, the Golden Triangle, and the Golden Horseshoe areas.

Ecosystem Recovery Inc. is at an exciting stage in its development, and provides an opportunity for enthusiastic and dedicated professionals.

Position Description

As a member of our team you will be involved in many aspects of project development and delivery. The position will primarily focus on the use of AutoCAD to design and create working drawings for both planning and construction of projects.

The candidate will draw on their technical training, skills, experience and initiative to fulfill the following responsibilities and expectations:

- Report to senior staff as an enthusiastic and engaged member of the team.
- Undertake water resources/environmental related project design, (storm water management facilities, LID installations, slope stability projects, shoreline restoration, pond and lake restorations, and natural channel design) and develop complete project design drawings
- Undertake construction review and contract administration duties.
- Complete topographic surveys and site assessments, site data collection.
- Produce written reports and correspondence as required to meet project needs.
- Interact with clients and construction personnel.

Qualifications and Experience

The following qualifications would be beneficial to qualify as a candidate:

- Proficiency with AutoCAD Civil 3D.
- Experience with the ESRI ArcGIS suite of software
- Experience with HEC-RAS hydraulic modelling software or other water resources related models
- Experience with topographic surveying equipment, total station, level and GPS
- Excellent written and verbal communication skills
- Engineering technology designation or eligibility
- Drivers license and access to a vehicle.

If you feel that you are qualified for this position and are interested in joining a progressive and engaging work environment, please send your resume to jeff.prince@ecosystemrecovery.ca.
